

Stratus Packaging Group & décomatic

# A PERFECT MATCH

*We are very pleased with the merger of décomatic and Stratus Packaging.*

*Our companies, both family-owned, share the same fundamental values, a strong desire to join hands with ambition, humility, and enthusiasm in a common dynamic of progress and innovation.*

It was with these words that Isidore Leiser, CEO of Stratus Packaging, and Jean-Luc Allègre, CEO of décomatic, finalized the merger of their two companies. This affiliation represents a new step in the development of the Stratus Packaging Group, and gives a new momentum to décomatic.

For Jean-Luc Allègre, «*décomatic has now an ally to rely upon that is a leader in the world of adhesive labels to consolidate its positions and guarantee its future in the long run*».

Isidore Leiser explains that «*décomatic and Stratus Packaging have become strong brands in their respective markets. There is no doubt that the synergy of strategies, resources and ideas will benefit all our customers as well as our staff. It will allow our sales networks to offer a wider range of packaging and labelling solutions and enjoy a capacity for innovation that will answer to every need*».

Isidore LEISER, CEO of the Stratus Packaging Group and Jean-Luc ALLEGRE, CEO of décomatic

Not to mention that the complementarity between décomatic and Stratus Packaging is exemplary, with an assortment of product covering a diverse range of business segments.

They share the same taste for innovation, service, cutting-edge technical expertise in all printing and finishing technologies, and both strive to meet their customers' expectations as closely as possible.

With one voice, the two leaders speak of «*the family roots of our companies, which have played a fundamental role in this merger from the very beginning, greatly sped up the discussions between us. The fact that our corporate cultures are based on the same values will certainly ease the merger*».

Described by the two players as an «*innovation and investment boost*», this merger creates a new industrial group with a turnover of almost €90 million and 462 employees spread across eight manufacturing facilities in France and Switzerland, making it one of the European leaders in the sector.
